Claims Rejection Under 35 U.S.C. §103

The Examiner has rejected Claims 1-4, 6, 11, 16-17, 24, 26, 27, 30-31, and 34 under 35 U.S.C. §103 as being unpatentable over Huegel, U.S. Patent 5,2239,480 ("Huegel"). Applicants respectfully traverses this rejection.

Applicants have amended all existing independent claims to make clear that the system and method permit selection specific individual seats and that the selection is at an end user's discretion. In a telephonic interview on February 23, 2006, the Examiner agreed that such amendments would overcome the references of record. Accordingly, Applicants respectfully request that the rejection be withdrawn.

Various dependent claims, 25, 28, 29, 32, and 33, were rejected based on various combinations of other references with Huegel. However, the additional reference at least as it fails to cure the deficiencies of Huegel as it relates to the selection of a specific individual seat in a venue. Thus, the claims are at least patentable as dependent on a patentable independent claim.

Accordingly, it is respectively requested that these other rejections also be withdrawn.
